

TBT 3x65w halogen 12v

Low voltage lighting balloon

The autonomous light

Airstar, the inventor and world leader of lighting balloon technology, offers a complete range of products to meet all your construction lighting needs.

Airstar lights are diffused, glare-free and illuminate a 360° area.

The Sirocco TBT 3x65w halogen 12v is a low voltage lighting balloon specifically designed to work in small and confined places.

The TBT 12v works off batteries. It is compact and mobile, especially when carried as a backpack, allowing the user to see, to be seen and to work hands free.

TBT 3x65w halogen 12v - Low voltage lighting balloon

SELF-INFLATING LIGHTING BALLOON

- > **Mobile and compact:** ideal to light small areas
- > **All-purpose 12v:** can be connected to a vehicle's battery

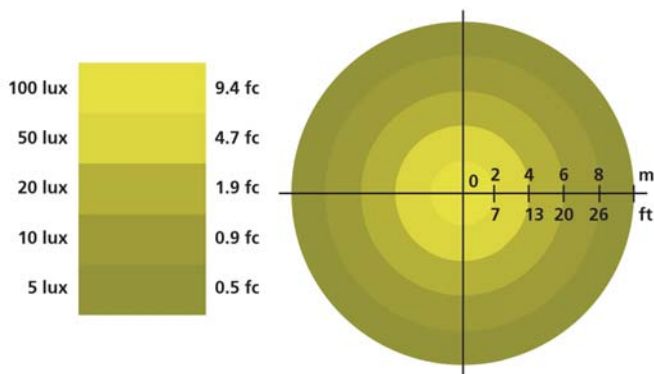

The balloon

- 50cm (1.6ft) in diameter
- Self-inflated by an internal fan
- The integrated reflector offers optimal light output
- The elliptical shape offers a better wind resistance: up to 30km/h (18.6mph)
- A stem at the base of the envelope is used to adapt the balloon to the stand sold with it

The light

The balloon offers an optimal light at 2m (6.5ft)

Lighted area	200m ² (2150sq.ft)
Light under the balloon at a 2-m (6.5ft) height	140Lx
Lighted area with at least 10 lux	60m ² (646sq.ft)
Maximum lumen	5250Lm

Quick and easy set up

- Automatically inflates in 45 seconds once plugged
- Lights once inflated from a switch at the base of the balloon
- Set up time is 5 minutes maximum for one person

Safety and reliability

- IP53 balloon
- The texture of the envelope is non flammable
- The volume of the balloon keeps the envelope cold and allows to handle it without being burnt
- A safety system switch turns the power off if the internal pressure is reduced
- Low voltage = safety
- Noise level: 44dB

Easy transport and storage

- In a plastic case: 52*32*23cm (1.7*1*0.75ft)
- Total weight of the balloon: 2.65kg (5.8lbs)

Electrical features

Made of one supply circuit for 3 65w commutable lamps

Type of lamp holder	G6.35
Type of lamps	Halogen IRC
Power cables	2x4 ²
Power supply	12v
Average lamps life	4000h
Power supply protection	1x25A fuse battery
Efficiency	27Lm/w

Mounting option

- Pole made of 5 clipsable sections of 50cm (1.6ft) in stainless steel for stand alone on the ground = can also be adapted on a backpack especially designed for this balloon

Available accessories

- Black backpack with one big pocket, 2 zippers and spaces to insert the pole
- Pack of 1x12v-17Ah battery with connectors
- Clips to connect directly to the battery of a vehicle
- White envelope
- Inverted envelope
- Spare lamp
