SIROCCO 2-S

24 x 10 W LED 48 V

.....

NOUVEAUTÉ

CONTEXT

In April 2015, Airstar launched the Sirocco 2-S range.

The 2-S range offers **real technical transformations** as well as ongoing improvements:

- Reinforced fabric, stronger and more durable for industrial use
- A flexible and vibration free lamp holder plate
- The south plate is now metallic
- The cage is now joined together with the south pole, like our 2-M range, making it mechanically stronger

New accessories also complete the 2-S range such as:

- A new stand: P400TA - A very stable stand for small Sirocco balloons.
- A new case: the pro-case - a case that gives you the ability to transport your lighting balloon with all its accessories in one go.

To complete the 2-S range with state-of-the-art lighting balloons, Airstar has developed LED technology for Sirocco.

WHY SHOULD YOU HAVE THE SIROCCO 2-S 24X10 W LED 48 V ?

LED technology

LED technology has been adapted to Sirocco use. It offers great advantages compared to other lighting solutions. Indeed LEDs have a lower consumption, a longer life cycle, a hot restrike and they work well in safety extra low voltage.

A multipurpose lighting balloon

It works on battery and has a light weight. It is a very easy-to-use product. Moreover LED are more resistant to impacts and vibrations. Thus the Sirocco 2-S 24x10 W 48v LED can be used under harsh conditions.

The Pro-case option

The pro-case enables the transport in one go of your lighting balloon and all its accessories. You can either buy the Sirocco 2-S 24x10 W 48v LED alone or the Pro-Pack, which is the complete set composed of **the lighting balloon and all its accessories in the pro-case.**

SIROCCO 2-S

24 x 10 W LED 48 V

MAIN FEATURES

Sirocco 2-S 24x10 W LED 48V
 Lamps: 24 x 10 W LED COB
 Efficiency: 103 Lm/W
 Maximum lumen: 24 000 lm
 Colour temperature: daylight, 6000°K

STRENGTHS

Strengths of Sirocco 2-S 24x10 W LED 48V
 Instant restrike

Excellent size-to-performance ratio:
 240 W and a battery autonomy up to 12h

LED lamps

Flexible and multipurpose: safety extra low
 voltage, light weight...

Strengths of the Pro-pack
 Easy transport

Robustness of the materials

MARKETS

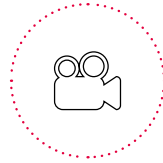

Industrial maintenance
 including confined
 space lighting

Small construction
 works such as towing
 and repair services

Rescue lighting for
 emergency operations,
 firefighters...

Logistical lighting on
 events and cinema
 sets for instance

Security lighting such
 as police check points

PACKAGING

	Standard version	Pro-pack version
Lighting balloon Sirocco 2-S 240 W 48v LED	✓	✓
2 batteries + 2 chargers	✓	✓
1 repair patch kit, 1 user manual, 1 glove	✓	✓
P400TA stand		✓

Pro-pack version

Standard metal case

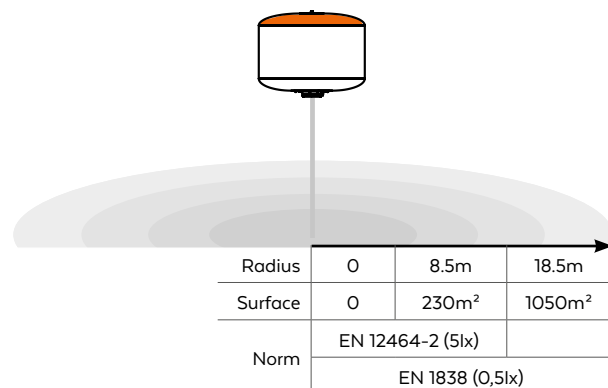

SIROCCO 2-S

24 x 10 W LED 48 V

LIGHTING DATA

Open core area lighting requirement (EN1838 norm)	1050 m ²
Very low risk area lighting requirement for safety and security (EN12464-2 norm)	230 m ²
Light under the balloon (2 m high)	403 lux
Maximum lumen	24 000 lm
Colour temperature: DAYLIGHT	6000°K

How to read the drawing : In a range of 18.5 meters, being a surface of 1050m², we guarantee a lighting in accordance with the standard EN1838

TECHNICAL DATA

Lamps	6 x 4 x 10 W LED			
Average lamps life*	30 000 h			
Efficiency	103 lm/W			
Bulb / COB type	10W LED COB			
Maximum power	240 W			
Power supply	48v lithium battery			
Dimmable	100%	66%	33%	flash mode
Lifetime on battery	4h	6h	12h	8h
Restrike time	instant			
Envelope options	multiple envelope colours, without reflector or with reverse reflector			

*Under normal conditions of use

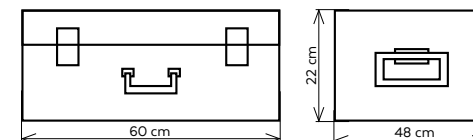

SAFETY

Flame-retardant fabric	
Silver reflector to improve highlight luminance below the balloon and avoid light pollution	
Rain and dust proof material	IP54
Wind resistance	80 km/h

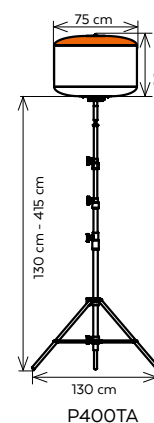

DIMENSIONS & PACKAGING

Metal storage box (integrated handle)

Total weight without stand	22 kg
Net weight balloon only	3.7 kg

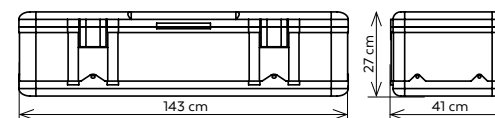

Full set lighting balloon with 2 batteries, 2 chargers, one repair patch kit, one user manual and one glove, all in a metal box, stand separately

Pro-Pack (integrated handle and wheels)

Total weight with stand	38 kg
Net weight balloon only	3.7 kg

Full set lighting balloon with 2 batteries, 2 chargers, one repair patch kit, one user manual and one glove, P400TA stand, all in a black hard case
