AIRSTAR

SPIRIT OF FREEDOM

skyflag

main features

- > Helium-inflated tube
 - > Stationary or mobile use
 - > Height of use: from 10 to 30 m
-

AIRSTAR

why should you have the skyflag?

A giant banner: An ingenious solution to highlight the colors of your brand on a 12 m long tube, supporting a giant flag of more than 100 m².

Visibility assured: The Skyflag can be used from 10 m up to 30 m above the ground, giving you an unmatched visibility in all kind of environments. Its illuminating option promises you a day and night efficiency.

100% customizable: Vinyl graphics can be affixed to the tube in addition to the custom printed flag.
