SPIRIT OF FREEDOM

# lunix

## main features

- > Helium-inflated balloon
- > Indoor or outdoor use
- > Can also be air-inflated when suspended
- > Dimmable light (halogen) or RGB LED

## why should you have the lunix ?

**A very versatile product:** in its applications (lighting, communicating, decorating) and in its target markets (reception, showrooms, festivals etc..). It can also be customized, particularly with vinyl graphics. Thus it is an ideal product for rental jobs.

**Lunix RGB LED:** an helium lighting ballon with RGB LED and DMX control.

**6 unique shapes:** thanks to their unique shapes, Lunix lighting balloons bring a clear added value of differentiation to any kind of event. They also enable a great brand awareness that puts logos in the spotlight.
